Данное учебное пособие по практической русской грамматике предназначено для англоговорящих учащихся, владеющих русским языком на уровне выше A2. Оно также может быть использовано в работе преподавателями русского языка как иностранного. Концепция, объяснения и оформление издания носят сугубо практический характер. Англоязычная часть пособия основана на британском варианте английского языка.

Книга состоит из двух частей:

**часть 1** — «Основы грамматики» — содержит 138 разделов;

**часть 2** — «Практикум по грамматике» — содержит 69 разделов и 144 упражнения.

Каждая часть имеет свою нумерацию разделов. Книга предназначена как для использования в аудитории, так и для самостоятельной работы.

This book is meant for English-speaking pupils and students of Russian at the post-introductory stage. It can also be used by teachers of Russian in their work. The concept, explanations and design of the book are entirely practical. The English part of the book is based mainly on British usage and spelling.

The book consists of two parts:

**Part 1** — Grammar Basics — contains 138 units;

**Part 2** — Grammar Practice — contains 69 units with 144 exercises.

Mind that each part has its own enumeration of units. Class use and self-study.
