

CONTENTS

Editor's column	1
Sheir Marwa A. Innovative use of date (<i>Phoenix dactylifera</i> L.) press cake in the food industry	2
Chernukha Irina M., Fedulova Liliya V., Kotenkova Elena A. White, beige and brown adipose tissue: structure, function, specific features and possibility formation and divergence in pigs	10
Hien Bui Thi Thu, Diem Pham Thi, Tung Le Anh, Huong Tran Thi, Hoang Nguyen Huu, Bat Nguyen Khac, Nghia Nguyen Viet Optimizing enzymatic hydrolysis for feed production from catfish by-products	19
Babich Olga O., Milentyeva Irina S., Dyshlyuk Lyubov S., Ostapova Elena V., Altshuler Olga G. Structure and properties of antimicrobial peptides produced by antagonist microorganisms isolated from Siberian natural objects	27
Ndinchout Alvine Sandrine, Chattopadhyay Debapriya, Ascension Nyegue Maximilienne, Kaur Varinder, Singh Narpinder, Paul Moundipa Fewou Muffins fortified with <i>Dacryodes macrophylla</i> L. fruit: quality and sensory evaluation	40
Büyükkormaz Çağrı, Küçükbay F. Zehra Kumquat fruit and leaves extracted with different solvents: phenolic content and antioxidant activity	51
Mariod Abdalbasit Adam, Abdalrahman Eshraga Mustafa, Shakak Mahdi Abbas Black mahlab (<i>Monechma ciliatum</i> L.) seeds: processing effects on chemical composition and nutritional value	67
Mohammed Nameer Khairullah, Ragavan Hemala, Ahmad Nurul Hawa, Hussin Anis Shobirin Meor Egg-free low-fat mayonnaise from virgin coconut oil	76
Saniewski Michał, Falandysz Jerzy, Zalewska Tamara ¹³⁷ Cs and ⁴⁰ K activity concentrations in edible wild mushrooms from China regions during the 2014–2016 period	86
Parada Romina B., Marguet Emilio, Campos Carmen A., Vallejo Marisol Improving the nutritional properties of <i>Brassica</i> L. vegetables by spontaneous fermentation	97
Tan Sook Ling, Meriam Suhaimy Syazwan Hanani, Abd Samad Nur Azimah, Hamizi Nor Aliya Effects of adulterated palm cooking oil on the quality of fried chicken nuggets	106
Pogorelov Alexander G., Ipatova Larisa G., Pogorelova Maria A., Kuznetsov Alexander L., Suvorov Oleg A. Properties of serum albumin in electrolyzed water	117
Rimareva Liubov V., Serba Elena M., Overchenko Marina B., Shelekhova Nataliya V., Ignatova Nadezhda I., Pavlova Anzhelika A. Enzyme complexes for activating yeast generation and ethanol fermentation	127
Papuga Saša, Pećanac Igor, Stojković Maja, Savić Aleksandar, Velemir Ana Mead fermentation parameters: Optimization by response surface methodology	137
Buryndin Victor G., Artyemov Artyem V., Savinovskih Andrei V., Krivonogov Pavel S., Krivonogova Anna S. Biostability of binder-free wood and plant plastics protected with antiseptics	148
Khrundin Dmitrii V., Ponomarev Vsevolod Ya., Yunusov Eduard Sh. Fermented oat milk as a base for lactose-free sauce	155
Fedortsov Nikita M., Budkevich Elena V., Evdokimov Ivan A., Ryabtseva Svetlana A., Budkevich Roman O. Bovine serum albumin with gallic acid: Molecular modeling and physicochemical profiling	163
Beketov Sergey V., Kaledin Anatoly P., Senator Stepan A., Upelnik Vladimir P., Kuznetsov Sergey B., Stolpovsky Yuri A. Zeboid cow milk: physicochemical quality indicators	171
Samoylov Artem V., Suraeva Natal'ya M., Zaytseva Mariya V., Petrov Andrey N. Bioassay of oxidative properties and toxic side effects of apple juice	176
Marynich Aleksandr P., Abilov Batyrkhan T., Semenov Vladimir V., Dzhaferov Novruz M. O., Kulintsev Valery V., Serdyukov Igor G. Effects of high-protein feed supplements on lamb productivity	185
