ISSN 2091-5071

This publication was prepared with the wide use of governmental statistics provided by ministries, agencies and international organizations.

We would like to express our special gratitude to government institutions of the Republic of Uzbekistan, in particular to the State Statistics Committee, as well as employees of the Center for Economic Research for their invaluable comments, ideas and many useful suggestions in preparing this publication.

The publication  
has been produced  
with the support of the UNDP  
Support to the Reform Process  
in Uzbekistan project
