

CONTENTS

GENETICS AND GENOMICS

- Laptev G.Yu., Yildirim E.A., Dunyashev T.P. et al.* Biodiversity and predicted metabolic functions of the rumen microbiota depending on feeding habits at different stages of the physiological cycle of dairy cows 619
- Barkova O.Yu., Krutikova A.A., Dementyeva N.V.* A polymorphism analysis of dysferlin gene locus in chicken gene pool 641
- Fisinin V.I., Selionova M.I., Kovalev D.A. et al.* Genetic differentiation of turkey breeds with microsatellite markers 651

MYCOTOXICOSES

- Yildirim E.A., Grozina A.A., Vertiprakhov V.G. et al.* Effect of T-2 toxin on expression of genes associated with immunity in tissues of the blind processes of the intestinal and pancreas of broilers (*Gallus gallus* L.) 661
- Vertiprakhov V.G., Grozina A.A., Gogina N.N. et al.* The intestinal T-2 and HT-2 toxins, intestinal and fecal digestive enzymes, morphological and biochemical blood indices in broilers (*Gallus gallus* L.) with experimentally induced T-2 toxicosis 682

VETERINARY VIROLOGY, MICROBIOLOGY, PARASITOLOGY

- Nefedchenko A.V., Glotov A.G., Koteneva S.V. et al.* Detection and quantitative assessment of viral and bacterial pathogens in bovine respiratory diseases by real-time-qPCR 695
- Neustroev M.P., Petrova S.G., Elbyadova E.I. et al.* Identification of new isolates of the horse strangles causative agent in Northern Siberia 707
- Kuznetsov Yu.E., Belova L.M., Gavrilova N.A. et al.* Epizootic monitoring of protozooses in the fur farms of the Kaliningrad region (2018-2020) 718

PHYSIOLOGICAL ADAPTATIONS

- Abilov A.I., Kombarova N.A., Amerkhanov Kh.A. et al.* Metabolic profiles and sperm production in imported Holstein bull sires under different climatic and geochemical conditions of Russia and Kazakhstan 730
- Mamontova T.V., Selionova M.I., Aybazon A.-M.M.* Sexual activity and sperm production of Charolais and Ile-de-France rams in different seasons of the year 752

TISSUE BIOSTIMULANTS

- Shabunin S.V., Vostroilova G.A., Parshin P.A. et al.* Anticlastogenic activity of aminoseleone under the effect of cyclophosphamide on the bone marrow of mice 763
- Pushkarev I.A., Afanasyeva A.I., Kureninova T.V. et al.* Metabolic status and milk productivity of cows injected with a tissue biostimulant derived from reindeer husbandry waste 772

INTENSIVE ANIMAL FARMING

- Fisinin V.I., Saleeva I.P., Osmanyan A.K. et al.* Histostructure of the tracheal wall of broiler chickens depending on air circulation conditions in closed poultry houses 782
- Kavtarashvili A.Sh.* Quality parameters in eggs of layer cross Hisex Brown as affected by the oviposition time 795
- Staroverova I.N., Maksimov V.I., Balakirev N.A. et al.* Relationship of dielectric properties of the hair cover with its morphophysiological and biochemical characteristics in farmed fur-bearing animals 809
