The Journal is registered by the Federal Agency for Supervision in the Sphere of Telecommunication, Information Technologies and Mass Communication, Certificate of Registration: ПИ № ФС77–65509 from May 4, 2016

### **Aims and Scope:**

*Changing Societies & Personalities* is an international, peer-reviewed quarterly journal, published in English by the Ural Federal University. *CS&P* examines how rapid societal-level changes are reshaping individual-level beliefs, motivations and values – and how these individual-level changes in turn are reshaping societies. The interplay of personality traits and sociocultural factors in defining motivation, deliberation, action and reflection of individuals requires a combination of theoretical and empirical knowledge. Since an interdisciplinary approach is needed to understand the causes and consequences of the contemporary world's changing socio-political institutions, moral values, and religious beliefs, the journal welcomes theoretical and empirical contributions from a wide range of perspectives in the context of value pluralism and social heterogeneity of (post)modern society.

Topics of interest include, but are not limited to

- value implications of interactions between socio-political transformations and personal self-identity;
- changes in value orientations, materialist and post-materialist values;
- moral reasoning and behavior;
- variability and continuity in the election of styles of moral regime and/or religious identity;
- the moral bases of political preferences and their elimination;
- social exclusion and inclusion;
- post-secular religious individualism;
- tolerance and merely “tolerating”: their meanings, varieties and fundamental bases;
- ideologies of gender and age as variables in political, moral, religious and social change;
- educational strategies as training for specific social competences;
- social and existential security.

The journal publishes original research articles, forum discussions, review articles and book reviews.
